CONDRA – LIFTING SOLUTIONS SINCE 1966

Thank you for taking the time to enquire about Condra. We present below a résumé of our company's history and capabilities.

Condra's engineering expertise, the flexibility offered by our in-house design facilities and our wide range of standard products have placed us among the world's leading crane manufacturers.

We are still growing.

HISTORY

Condra was founded in 1966, in Johannesburg, South Africa.

Initially structured as a consultancy and drawing office with general engineering capabilities, later research into the market for hoists and overhead cranes revealed an opportunity which Condra's management believed the company could fill – that of local manufacture in place of the local assembly of imported products. The research indicated that there existed substantial demand for a range of robust cranes and hoists if these could be competitively priced.

Manufacture of overhead cranes began in 1971. Four years later Condra moved to a custom-built factory where design and manufacture of the first hoists began.

The company moved in December 2008 to a 22 000m² factory site, 9 000m² of which is under roof.

FINANCIAL BACKGROUND

Founder Josef Kleiner remains the company's owner. His son, Marc, is managing director. There are no external shareholders.

The company is wholly funded by profits generated by its range of high quality products.

ORGANISATION

Condra is organised around four divisions:

- **DESIGN:** Condra's in-house design team exists to accommodate any and all customer requirements.
- **MANUFACTURE:** Condra's main manufacturing plant is in **Johannesburg, South Africa**, with a second works in **Cape Town**. Europe and Russia are supplied from a sister company's factory in **Gabrovo, Bulgaria**.
- **SERVICE:** Condra's rapidly expanding service division offers maintenance to all makes of equipment as well as to Condra's own installations.
- **SALES:** In **South Africa**, Condra is directly represented in Johannesburg, Cape Town and Durban, and has an extensive network of authorised agents. In central Africa, Condra has formalised agencies in **Namibia, Kenya, Botswana and Zambia**, with qualified technicians based in Kitwe travelling to **Tanzania** when needed. The company is currently establishing service relationships with representatives in **Mozambique, Zimbabwe, Tanzania and Angola**. Internationally, Condra has agents in **South America, Australia** and the **Middle East**.

PRODUCT RANGE

Condra's cranes can be used for hook duties, grabbing, magnet, ladle, bucket or stacking duties, and can be operated manually, electrically, or in combinations thereof. Typical products include:

- Overhead travelling cranes – single-girder and double-girder
- Hoists (wire rope)
- Portal and semi-portal cranes;
- Cantilever cranes (pillar, jib, wall or walking)
- End-carriages
- Crane components

Overhead cranes are manufactured to specification from some 250 sub-assemblies, the main components being **hoists, drives, end carriages, brakes, gearboxes and motors**. Condra makes all 250 sub-assemblies. Hoists are manufactured in a number of standard models suited to most mining, industrial and general applications from 1 to 500 tons. **Hooks** manufactured to FEM standards are offered in single, double, four, six and eight-fall arrangements, with lifting capacities from 1 to 32 tons, as ex-stock items. **Special hooks** up to 150 tons are offered on application. Condra also supplies **cable loop (festoon) systems, enclosed and open wire conductor systems**.

CERTIFICATE

Quality Austria
has issued an IQNet recognized certificate that the organization:

Condra Bulgaria Ltd.
Bulgaria, 5370 Dryanovo, 13-15 Dimitar Krusev Str.

for the following scope:

Organization of design, production, assembling and after sales maintenance of cranes and hoists
EAC: 18

has implemented and maintains a

QUALITY MANAGEMENT SYSTEM

which fulfils the requirements of the following standard

ISO 9001:2015

Issued on: 2018-07-09
Validity date: 2021-07-08
Quality Austria certified since: 2018-07-09

This attestation is directly linked to the IQNet Partner's original certificate and shall not be used as a stand-alone document

MANUFACTURE, INSPECTION AND TESTING OF EQUIPMENT IS CARRIED OUT AT CONDRA'S PREMISES IN GOSFORTH PARK, SOUTH AFRICA.

ALL EQUIPMENT IS TESTED TO 125% OF SAFE WORKING LOAD, PRIOR TO SHIPMENT.

ONCE THIS HAS BEEN DONE COMPONENTS OR COMPLETE CRANES ARE CRATED AND SHIPPED AROUND THE WORLD.

HITACHI

Inspire the Next

Dear valued customer,

Condra (PTY) Limited has been the sole South African distributor of the Hitachi range of chain hoists since September 1st 2009.

Condra's agreement with Hitachi means that you will now be able to source all your requirements for lifting equipment from a single company.

The Hitachi range means that Condra can now offer lifting equipment from 250 kg to 500 tons in all classifications, configured in single, dual or variable-speed drive arrangements.

We look forward to any enquiry that you may have. Please feel free to contact us at any time.

Yours Faithfully

LYNN KLEINER
