FLAMEBLOCK

FlameBlock is a Proudly South African Company that develops, manufactures and supplies a wide range of passive fireproofing products in order to provide a bespoke passive fireproofing solution to its customers.

FLAMEBLOCK SHIELD

It forms a seal to prevent the spread of flames and toxic gases through service openings

FLAMEBLOCK WOOL

FlameBlock Wool is a high-density mineral wool board, which is a non-combustible material easily compressed into difficult openings

FLAMEBLOCK PAINT

FlameBlock Topcoat is a high-quality acrylic waterproofing used in conjunction with FlameBlock Shield.

FLAMEBLOCK PANEL

FlameBlock Panel is a fire-retardant panel with insulating properties designed to stop fire propagation at all service openings.

FlameBlock, Customer Centric Innovation in a world of standardised mediocrity
