

LX6

The LX6 is a medium fidelity simulator platform perfect for machine and site familiarization, emergency response and compliance training

INTERCHANGEABLE MACHINE GROUPS SUPPORTED

Medium Fidelity Simulator

LX6

Features

A	Six full HD screens for a large field of view	C	Smaller footprint platform compared to high fidelity simulators
B	Wide horizontal field of view allows truck trainees to safely transition and navigate through intersections	D	Large vertical field of view offering clear visibility when digging, dozing or grading

Benefits

Increase Training Productivity & Safety <ul style="list-style-type: none"> Ideal for early training stages, emergency response, machine and site familiarization Accomplish compliance training for safety Free-up high fidelity simulators to conduct advanced training Perfect solution for expanding training capacity 	Cost-effective Solution <ul style="list-style-type: none"> Lower cost training solution than high fidelity simulators Efficiently train large groups of trainees at low cost Minimize production impact by reducing the amount of in-field training time 	Promote Simulation Efficiencies <ul style="list-style-type: none"> Compatible with all Surface mining equipment modules / Conversion Kits® Increase training throughput by utilizing surplus Conversion Kits Conversion Kits are interchangeable across all Immersive Technologies' simulator platforms
